

Base Blend – F18

Dried Seaweed Meal / Farine de Varech séchée
Sargassaceae, Gracilariaceae and Ulvaceae

Ocean Harvest Technology Ltd,
Milltown Business Park,
Milltown, Tuam, Co. Galway, Ireland

25 Kg (55 Lb)

Overall the 3 species that are found in the Base Blend are the broad spectrum building blocks of the species specific products

The species add more nutritional density to the diet in comparison to a single species LAMINARIACEAE product

Our **Dried Seaweed Meal** blend was specifically selected because of the bioactive properties the seaweed contains. Bioactive compounds are a large group of compounds that can have a positive effect on the health and well-being of a living organisms, tissue or cell. The properties of these compounds include antioxidants, polysaccharides, amino acids, pigments, flavonoids, long-chain fatty acids, and water-soluble proteins. Bioactive compounds are the strength of our blend, and lead to increased nutrient availability

When a small amount of **Dried Seaweed Meal** is included in the diet it supports gut health and promotes nutrient absorption, thus improving your animal's overall health.

Dried Seaweed Meal is a rich source of B-vitamins and minerals which compliment your premix program.

Size:	25kg Bag	1000kg Tote (Special Order)
Code:	F18	F18-1000

Benefits

Dairy Cattle:

- Enhances the immune system
- Supports hoof health
- Encourages regular heat cycles
- Supports milk yield and lengthened lactation periods

Beef Cattle:

- Enhances immune system by supporting a balanced nutrition program
- Supports hoof health
- Encourages regular heat cycles

Goats:

- Increases feed efficiency
- Helps hoof health
- Promotes better market weight

Sheep:

- Enhances Immune system
- Increased births
- Encourages early lambing
- Improves wool quality

Swine:

- Enhances immune system
- Promotes rapid weight gain leading to early marketing
- Decreases back fat

Poultry:

- Promotes healthy immune system
- Enhances feed efficiency
- Endorses feathering
- Helps breast yield
- Deepens yolk pigmentation

Horse:

- Promotes a healthy immune system
