From The President

As 2021 draws to a close, I want to take a moment to thank all Bio-Ag staff for their teamwork and support, and our customers for their flexibility and commitment to Bio-Ag.

As we look to the future, Bio-Ag has a lot to look forward to in 2022. Bio-Ag will be celebrating its 40th anniversary. In commemoration of the anniversary, we have dedicated the 2022 Calendar to the past, present and future of the company. Each month Bio-Ag will present the history, products, and future goals of Bio-Ag. Quarterly, there will be a product promotion. Selected months will have exceptional promos for our valued customers, so keep a look-out for these great deals. To take full advantage of the promotion please use the codes given in the calendar when placing your order with our amazing call-takers.

The future is now as we are looking to pre-order products before the spring rush on both Mineral Grow and Black Earth. If you are interested in pre-ordering there is an early-buy discount for orders place on or before December 15th, 2021. Contact your dealer to learn more about how these products can benefit your crops.

The January seminar is cancelled in accordance with COVID/health guidelines. Bio-Ag hopes that we will be able to offer these seminars again soon!

It has been a pleasure helping you reach your nutritional goals. Thank you for all your support over this past year. Looking forward to a better, 2022!

- Parry Bast, President

Early Buy Specials!

Black Earth is a humalite mineral mined from the layer between peat and soft brown coal in the earth. Acceptable for organic use by Pro-Cert

Why use Black Earth?

- Provides a food source for soil microbes, increasing their activity in mineralization and crop residue breakdown.
- Improves soil tilth and aggregation through improving aeration and water movement in the soil.
- In soil applications, the humates in Black Earth improve water holding capacity, microbial growth and nutrient availability.

Available in 25kg bags, 909kg tote

3% Early-Buy discount!

Place your order before or by December 15th!

Mineral Grow

All-Natural Soft Rock Phosphate

Benefits of using Mineral Grow All-Natural Soft Rock Phosphate:

- Helps improve crop growth and health, resulting in lush and greener growth.
- Stimulates strong root formation, hastens crop maturity and encourages earthworms and soil bacteria.

Available in 909kg totes

3% Early-Buy discount!

Place your order before or by December 15th!

Upcoming Product Specials

See calendar for details

Please check your Bio-Ag calendar for the promo code of the month to take advantage of these discounts!

2022 is Bio-Ag's 40th Anniversary!

In preparation for our 40th anniversary Bio-Ag is looking for your stories! If you'd like to share any fond memories you have with the company or the Bast family, please send them to:
nicole.kuyten@bio-ag.com

Please include:

Your name or farm name.

One product you were most impressed by.

A short story of you experience with the company and why you continue to support us.

We want you to know how much we appreciate your patronage and continued support, especially through this unprecedented time.

Thank You!

Recipe Of The Season

Coconut Candy

Use good sized thick bottomed pot.

1 cup brown or white sugar

1 cup corn syrup

Butter size of an egg

Boil to firm ball (check a little in cold water)

Take from stove and stir in as much coconut
as possible.

Drop by spoonful on waxed paper.

Cool

Stay up to date!
